PROJECT YETI

GARNER HOLT PRODUCTIONS, INC. creates the finest animatronics, show action systems, interactive exhibits and special effects in the world today. Our technological savvy, exceptional artistry and attention to detail is apparent in everything we make. Whether your goal is to educate, entertain or inform, whether you need a single animated figure or a total immersive environment, you can be sure that we will meet your expectations.

WHAT DO YOU GET when you combine 164 axes of motion, fifty microprocessors, proprietary electric actuation, more than 20,000 lbs. of force, a proprietary skin and muscle system, and hand-punched custom fur? The most incredible animatronic ever built!

Meet Garner Holt Productions' Yeti, a fully interactive animatronic that can see, hear, and communicate using American Sign Language. Meet the face of real animated life. Meet Garner Holt Productions' Yeti.

★**FULLY-INTEGRATED VISUAL RECOGNITION SYSTEM**

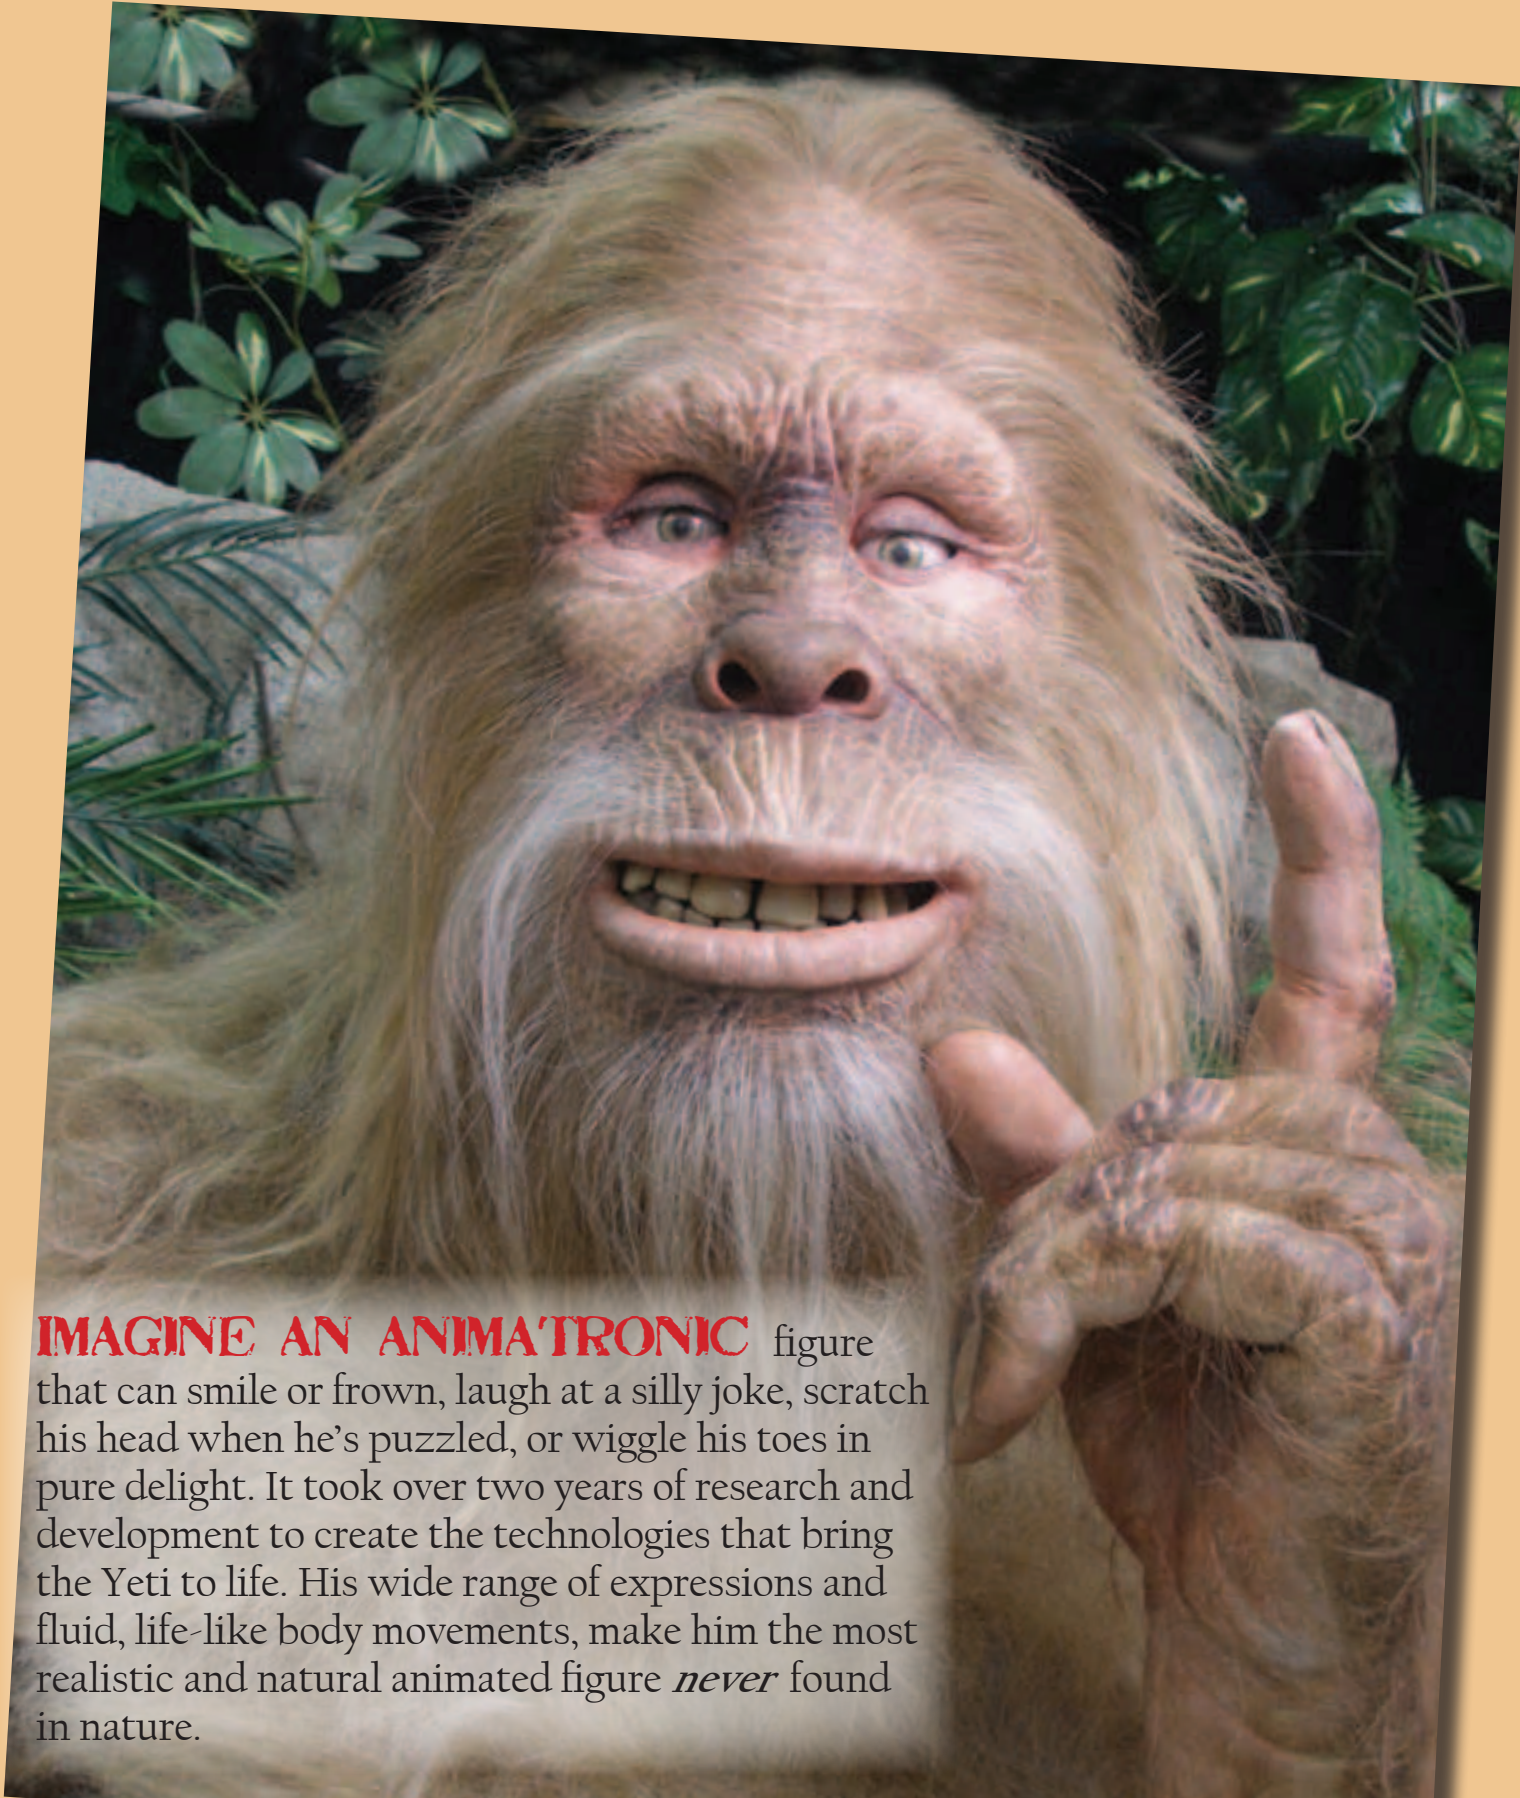

★**56 FACIAL FUNCTIONS**

★**164 MOVEMENTS**

★**9 FEET TALL**

★**1,700 LBS.**

THE WORLD'S MOST ADVANCED ANIMA'TRONIC

IMAGINE AN ANIMA'TRONIC figure that can smile or frown, laugh at a silly joke, scratch his head when he's puzzled, or wiggle his toes in pure delight. It took over two years of research and development to create the technologies that bring the Yeti to life. His wide range of expressions and fluid, life-like body movements, make him the most realistic and natural animated figure *never* found in nature.
